

# CYBERTECH INDIA

Cyber Warfare Cyber Deterrence Critical Infra Security

## 27-28 JUNE, 2018

DRDO AUDITORIUM, NEW DELHI

### REASONS TO PARTICIPATE

Evolution of Cyberspace as the fifth dimension of warfare where the lines in different phases of peace, crisis, conflict and post conflict are blurred, calls for a de-novo approach to develop the strategies and tactics for this domain. The center of gravity of this new form of warfare in fifth dimension has shifted to data and networks. The outcome of operations in this virtual domain could be tangible or intangible, but there is no denying its immense potential. Innovation and creativity to exploit technology and outwit the adversary in cyberspace to damage his capability to fight will remain the decisive factor.

Attacks on critical infrastructure are a growing concern with the greater convenience of connectivity. The attacks are on the rise and within infrastructure, attacks can mean loss of life, material and corporate assets. The seminar will focus with several sectors including Energy, Transportation, Medical, and Banking.

# SPONSORSHIP

**PLATINUM**  
INR 5,00, 000/-

8 m2 of Exhibition Space  
1 Speaker Slot- Day 1 Pre-Lunch  
4 Delegate passes

Presence on all promotional material

**GOLD**  
INR 4,00, 000/-

6 m2 of Exhibition Space  
1 Speaker Slot  
3 Delegate passes

Presence on all promotional Material

**SILVER**  
INR 3,00, 000/-

6 m2 of Exhibition Space  
2 Delegate Passes

Presence on all Promotional Material

**EXHIBITION SPACE ONLY**  
INR 50, 000/-  
15 Stalls Available

6x2 m Stall

3 Exhibitor Passes

Table and Chair

**DELEGATE FEE**  
INR 12, 000/-

### BESPOKE OPPORTUNITIES

Reception at the end of Day One  
Delegate folders  
Refreshment breaks  
Delegate badges

### SCOPE

Warfare in Fifth Dimension – Global trends and Indian Perspective  
Doctrinal, Policy and Organizational frameworks for Cyber ops  
Harnessing technologies for Cyber Resilience and Cyber Deterrence  
Cyber Terrorism, Cyber Hacking-framework the risk assessment and protection  
Critical Infra protection  
Legal Framework and International Cooperation

### THEMES

Assessment of the cyber threat landscape  
Evolution of own strategy in Fifth Dimension  
Operational and training doctrines, organizational framework and deployment philosophy of cyber units  
Technology needs and infrastructure for building resilient \ info-structures and cyber deterrence  
Capability and capacity assessment within India and abroad  
Addressing Critical Infrastructure Security

# SESSIONS

## 1 Cyber Warfare: Global Trends and Strategic in the Indian Context

Global Trends in Cyber Warfare  
Cyber Threat Landscape:  
Need for a Paradigm Shift in our Strategic approach

## 2 Cyber Operations

Cyber Operations through Peace - Conflict Spectrum  
The Social Side of Cyber Power  
Countering Advance Persistent Threats (APTs).

## 3 Legal Framework and International Cooperation

Cyber Laws in India  
Cyber Crimes, Risk Assessment and Protection  
International Cooperation and Best Practices

## 4 Resilience and Cyber Deterrence: A Technology Perspective

Cyber deterrence and Cyber Resilience  
Embedded Systems: The challenges of Supply chain poisoning

## 5 Critical Infrastructure Security

Energy, Banking and Telecon Sector  
Transportation & Health Sector

## 6 Capacity and Capability Building: Achieving Operational Capabilities

Organizations and Human Capital  
Knowledge, Skills and Attitudes (KSAs):  
Leveraging Indian IT Dominance in Cyberspace

# FEATURED SPEAKERS

- Hon'ble Defence Minister
- Hon'ble Minister of I T
- Chiefs of Army, Navy and Air Staff
- Chief of Integrated Defence Staff
- National Security Coordinator
- DG CERT
- Officials from DPSUs, Banks, Telecom and Infra
